

REMARKS

Claims 1-4 stand rejected under 35 USC §103(a) as unpatentable over McMillan in view of Skopp. Applicants have amended claims 1-4 to further distinguish over the cited references.

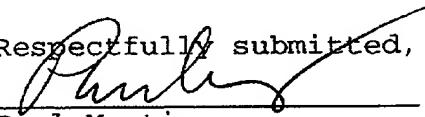

McMillan discloses a list of approved URL's for limiting information available to a user.

Skopp discloses a method of limiting access to a web site using a login, limiting frequency of visiting the web site, and limiting duration spent viewing the web site.

Applicants respectfully point out that the time limitations as taught by Skopp are different than the time limitations claimed by Applicants. Skopp limits frequency and duration of use by a logged in user with access to the web page, but does not limit all access to all users based upon time of day.

Applicants respectfully request that the pending claims be allowed.

Respectfully submitted,

Paul Martin
